Subject: Club Meeting Program Opportunity

[Presidents of ten local clubs]

Here's an opportunity for a short program at one of your club's meetings sometime between now and next winter.

The Nashoba Valley Amateur Radio Club has supported Girl Scout leader Jill Galus, KB1SWV, over the past two years as her Raymond NH troop organized and conducted two "Thinking Day On The Air" events. There is some background information on TDOTA and last year's event at <http://www.arrl.org/news/thinking-day-activity-gets-girl-scouts-thinking-about-ham-radio>. This year's event was even more successful and I can't overemphasize the satisfaction each of our participants felt in supporting both of these events.

Jill and her troop have decided that it's time for TDOTA to move beyond Raymond and that presents us hams an opportunity for service and outreach. We've put together a 30 minute talk on the subject—what we did, the fun we had, and how others can do it. If you wish, NVARC and Jill can dispatch a briefing team to speak to your club at a mutually schedule-convenient time. Contact me by e-mail to make arrangements.

73,
J.W. "Skip" Youngberg
