## Guidance for Operating the ARRL W1AW/Ø VOTA Special Event

- MN ARRL Clubs and ARRL members may reserve W1AW/Ø operating time slots during Minnesota's 2<sup>nd</sup> VOTA week from August 2<sup>nd</sup> through 8<sup>th</sup> UTC.
  - Slots are for two-hours (UTC; CDT is odd hours) using a chosen mode and band combination.
    - Multiple two-hour slots may be reserved based on priority and availability.
    - Acceptable modes include VOICE, CW, and DIGITAL (including FT8/4, RTTY, PSK, etc.).
    - Acceptable **bands** include HF, VHF, UHF, etc. (except WARC bands).
    - •

><u>ARRL Affiliated Clubs</u> have priority for reserving W1AW/Ø time slots by entering "(club callsign)/club" on the signup webpage.

>> Starting July 1st for reserving up to 8 time slots per day.

><u>ARRL members</u> may also reserve W1AW/Ø time slots.

>> Starting July 8th for reserving up to 4 time slots per day.

>Reserve open time slots within 6 hours before starting time.

- Your W1AW/Ø transmitter must be **located** within Minnesota.
- W1AW/Ø operators must upload their ADIF files (after each day or end of week) to the ARRL log
  pre-review site and make the necessary corrections.
- The state coordinators will then review your pre-reviewed logs and submit them to LoTW.
- The point counts are automatically applied after the final LoTW log submission.
- Remember that a time slot is for two-hours with a specific mode and band combination.
  - \*Once they are reserved, you can't switch times, modes, or bands.
  - More information is available by *clicking here*. For FAQ *click here*.
- No approval is necessary to reserve MN W1AW/Ø time slots. Just <u>click here</u>.
- During the week of July 24<sup>th</sup>, several Zoom sessions will be scheduled for Q&A.
- \*For assistance please contact your state coordinators: <u>arrl\_mn\_acc@donkelly.biz</u>

## Guidance for working W1AW/x VOTA Portable Stations

- Anyone may work W1AW/x portable stations from within or outside of their state.
  - The *state activation schedule* finds the state(s) that you're missing to complete your WAS.
  - W1AW/x is worth 5 points for each mode and band combination.
  - You can work all W1AW/X portable stations again (during their 2<sup>nd</sup> week) without duplication.
  - The W1AW/x portable stations are obligated to submit their contacts to <u>Logbook of the World</u> (LoTW), so you don't have to (but you should).

## Guidance for working ARRL Volunteer or Individual Stations

- Anyone may work participating stations from within or outside of their state.
  - Work participating stations anytime during the year 2023; not just W1AW/X portable stations.
    - Just call CQ VOTA (call) or answer stations calling CQ VOTA.
    - You may contact each station on all mode and band combinations (no WARC bands).
  - One of the stations must submit their log to LoTW. Then both stations earn QSO points credit.
  - It's not necessary for a volunteer station to identify their point value.
    - Make contact with a fellow ARRL member, and you each receive a point.
    - The number of points for a contact are based on the <u>VOTA QSO Points Table</u>.
