Nate Moreschi N4YDU <n4ydu@yahoo.com>

Here comes the sun!

With contesters starved for sunspots, it doesn't take many spots to get people excited. Apparently it doesn't take much to make the bands a whole lot more interesting. Contesters received some reprieve from low solar activity as the sun was sprinkled with a few spots on February 20th and 21st for the 2010 ARRL DX CW Contest. The net result was improved conditions, more fun, higher scores and more time in the, operating chair. Without further delay, let's get to the results. [Editor's note – The ARRL would like to thank Scott Robbins, W4PA, for his service in writing up the contest results for the past several years. Scott's purchase of Vibroplex is keeping him busy these days and we wish him well. At the same time, we welcome Nate Moreschi, N4YDU to the stable of ARRL contest results authors!]

W/VE Single Operator

The W/VE Single Operator, High Power (SOHP) category always produces a tough battle and 2010 was no different. This time around VY2ZM (MAR) powered his impressive Prince Edward Island Station to 5,549,292 points for first place. K3CR (WPA) was just a smidge behind after tallying 5,514,120 points for second place. That's only 0.06 percent difference. But also nearby was the

strong outing from VY2TT (MAR) with 5,218,695. VY2ZM set the pace with 4,656 QSOs, but K3CR nearly made up for the QSO gap with 424 mults (25 more than VY2ZM). VY2TT found 4,557 QSOs and 387 mults. K1RX (NH) clawed his way to a fourth-place finish with 4.98 million, followed by an impressive western 4.7 million total from N2IC in New Mexico.

N1UR (NH) continues to be a Single Operator, Low Power (SOLP) superstar. Ed's 3.0 million total earned him number one for W/VE for the fifth straight year. Ed may have to expand his shack to support all of his plaques. Not far behind Ed was another SOLP stalwart, K1BX (NH). Art's 2.8 million resulted in a runner-up finish, while N5AW (TX) fashioned an impressive 2.19 million from Texas for third place. Marv continues to post strong results, despite not being on the East Coast. W3EF (MDC) and N4YDU (NC) rounded out the top five respectively for the SOLP category.

K2DM (NNJ) was the only Single Operator, QRP (SOQRP) entry to cross the 1k QSO line (1,021). George's QSO total, combined with 272 mults resulted in the top spot with 828k points. K3PH (EPA) took second place with 681k, followed by 551k from W9WI (TN). West coast stations NØKE (CO) and N7IR (AZ) battled through the East Coast stations and finished fourth and fifth respectively to complete the top five SOQRP entries.

W/VE Single Operator, Assisted

K3WW (EPA) pocketed his third consecutive Single Operator, Assisted (SOA) title after fashioning a healthy 6.1 million points. NN3W (MDC) drove the N3HBX super station to a solid 5.64 million points for second place, but totaled a category high of 480 mults. K3WW had 452 mults, but kept the QSO rate high with 4,537 QSOs (NN3W finished with 3986 QSOs). AA3B (EPA) was third with 4.69 million, while W2RE (ENY) was fourth (4.32 million) and K2NG powered K2R to a fifth-place finish with 4.1 million.

W/VE Multioperator

It's no secret that there is a huge Multioperator, Multi-Transmitter (M/M) rivalry among K3LR (WPA), W3LPL (MDC) and KC1XX (NH). This year, team K3LR (K3LR, K3UA, N6AN, N2NC, N2NT,

N3SD, N6MJ, KL9A, NØAX, W2RQ, N3GJ) snapped W3LPL's stellar streak of three ARRL DX CW wins. The K3LR team tallied 398 more QSOs and three more mults for a final tally of 15.7 million points. The W3LPL squad amassed 14.92 million, as the KC1XX crew manufactured a strong 14.77 million total. W2FU (WNY) and KM1W (EMA) rounded out the top five in the M/M category. This category is growing in popularity as more teams are putting up highly competitive scores. Making the top five is quite a challenge.

After finishing second in 2009, the N3RS (EPA) team took the top W/VE spot for Multioperator, Two Transmitter (M/2) with a score of 9.91 million. N3RS was piloted by N3RS, N3RD, N2SR, W8FJ, NG7M and W7CT. K8AZ (OH) finished second in the category with 8.87

million. KB1H (CT), W4RM (VA) and KØTV (NH) finished 3rd, 4th and 5th respectively to cement the top five slots.

The Multioperator, Single-Transmitter (M/S) category was a tight competition as well. K9RS (EPA), had 260 fewer QSOs than KT3Y (VA) but a hefty mult total of 492 (46 more than KT3Y) gave team K9RS (K9RS, N3DXX, W2ID) the win with a total of 6.28 million points. KT3Y was second with 6.0 million, followed by 5.93 million from the team at W3BGN (EPA). K2QMF (NLI) finished fourth, as VE3UTT (ON) took the fifth spot.

W/VE Single-Band

W4ZV (NC) took the top W/VE 160 meter spot again this year with a 74k total. N2MF (WNY) cracked 1k QSOs on 80 meters for 251k and a first-place finish. On 40 meters, a band that produced a lot of excitement, VE7ZO made it a memorable trip to Georgia to operate the W8JI super station. He took the top spot on 40 driving W8JI to 804k points, 2291 QSOs and 118 mults. Twenty meters, always a staple in a DX contest, was led by the 704k performance from W1MU (ME). W1MU finished with a bottom line of 2010 QSOs and 118 mults. Fifteen meters was way more active than the past several years.

The 15 meter excitement helped N4PN (GA) tally 1327 QSOs and 109 (430k points) DX entities for the top US/VE spot. Ten meters showed glimmers of hope here and there, but remained quite tough. NN1N ground it out all weekend on 10 for a total of 9.9k points (91 QSOs, 37 mults) for first place on 10. Maybe a few sunspots will push 10 meters back to a powerful band next year.

DX Multioperator

For US, operators, there's usually a bevy of loud signals coming from the Caribbean on any given band if not multiple bands. It yields easy multipliers for a lot of stations. This year, as in many years past, US stations could count on bagging PJ2T on several bands. PJ2T (NØVD, NØYY, WØCG, N1ZZ, NP2L, W8AV, W8TK, W9SN, WA9S, ops) posted an impressive 9.68 million total for first place in the DX Multioperator, Multi-Transmitter (M/M)

The team tallied 6,195 QSOs and 346 mults to beat out second place V31TP. V31TP finished with 5,595 QSOs and 340 mults. For DX Single Operator, Single Band entries, the strategy is straightforward – point the antennas in the direction of US/VE, work mults, and run stations. C6AUM took full advantage of being close to the US and earned first place on 160 meters with 123k points. On 80 meters, N4BP operated as C6AKQ to push another C6A station to a single-band title. C6AKQ tallied 254k points. Why not make it another victory from the Bahamas on 40 meters? C6APG (K4PG, op) scored 317k points to edge out IR1Y (300k) for the 40 meter crown. Twenty meters was a different story. GM3POI logged 1903 QSOs and 53 mults for 330k points – just in front of a 324k performance from F6ARC. CE1/K7CA scored 411k on a strong 15 meter band with 2286 QSOs and 60 mults for the top 15 meter slot. On 10 meters, LU1HF nestled his way into many logs for 261k, 1,495 QSOs and 59 mults for first place on 10.

Continental Leaders

Contesting results are typically skewed based on what part of the world you are, operating from. A continental breakdown can better show relative performances.

In Africa for 2010, 5H3EE was first for SOHP. DL4SM did a fine job operating from 5H3. In SOLP EA8OM took the top African spot. EA8/EA4SV was first in Africa for SOA while EF8M (EA8CAC, RD3AF, K4ZA, RZ3AZ, EA8ZS, W2GD, ops) was the best African M/2 entry.

JF1NHD was the top SOHP entry running on all bands from Asia. In the SOLP category JI1RXQ was first. JA6GCE was first for SOQRP and JS3CTQ was the best SOA participant. The RTØC team (RWØCF, RWØCN, RWØCR, RZØCQ, UAØCA, UAØCC, UAØCDX, UAØCO, ops) took the M/S title, as JAØJHA (JAØQNJ, JHØKHR, JHØUSD, ops) was the best M/2 station and JA3YBK (JG3KIV, JG3MRT, JG3WDN, JH4NMT, JR4ISF, JF4FUF, JS1PWV, ops) was the leading M/M entry.

Europe is bread and butter for many US stations, especially on the East Coast. The high level of activity from Europe produces some hefty battles. CT1JLZ (OK1RF, op) was the top SOHP entrant, as AN2A (EA2AYD) was first in SOLP. F5MUX cruised to a European SOQRP title, while TM6M (F1AKK, F5TTU, F8DBF, ops) was first in the M/S column. CR2X (OH2BH, OH2MM, OH2PM, ops) was best in M/2 followed by the first-place M/M effort from the 9A1A (9A2DQ, 9A5W, 9A6A, 9A7R, 9A8W, 9A9A, ops) team.

From NA, many of the continental leaders were also world leaders. ZF2AM was first in SOHP, followed by the first-place outing in SOLP from VP9/W6PH. C6ASB (AKØM, op) cranked his station to gold in SOQRP. V31RR (AA4NC, op) took the top shelf in SOA, followed by the M/S win from V31TP (WCØW, K5PI, K5NZ, ops). 6Y1LZ was the frontrunner in M/2 and KP2M (K3CT & K3TEJ, ops) was the top M/M from North America.

KH7B garnered first place in the SOHP battle, while VK2AYD took top SOLP honors. The TX4T (F6BEE, FO8RZ, VE2TZT, ops) expedition was the best M/S, followed by the top M/2 performance from ZM1A (ZL1AIH, ZL3CW, ZL1GO, ZL1BHQ, ops). KH6LC (+ AH6RE, KØAV, KH7Y, N6DA, N6KB, NH6V, W6NV, W6SC) cruised to an Oceania M/M triumph.

South America can be a tough place to win a continent title from due to the very powerful and competitive Caribbean contingent. P43JB captured first place in the SOHP category and PS2T (PY2NY, op) was first for SOLP. YW2LA was first in SOQRP as P4ØLE (K2LE, op) was the best SOA entry. For the multi-op ranks, P4ØL was first in M/S, LU3DY (LU1DZ, LU3DAT, LU5FZ, LU6EF, LU6UO, LW2DX, LU7DSU, ops) first in M/2 and PJ2T first for M/M.

Top Dogs

Since a contest is all about score, it's fun to ask "Who got the most?" Whether you're interested in the most countries or the most contacts – here are the highest band totals for US and VE single-op, all-band dogs:

- 160 – VY2ZM with 314 QSOs and 57 entities
- 80 – K1RX with 821 QSOs and AA1K with 83 entities
- 40 – VY2TT with 1502 QSOs and K5MR with 94 entities
- 20 – K1RX with 1690 QSOs and N2IC with 107 entities
- 15 – N2IC with 1351 QSOs and N1LN with 109 entities
- 10 – N2IC with 73 QSOs and K3CR (LZ4AX, op) with 31 entities

Woof! These operators did all their own hunting (no spotting network assistance) and were busy on the other bands, as well. In fact, VY2ZM, K3CR, VY2TT, K1RX, and N2IC finished in places one through five for W/VE Single Operator, High Power!

What about the most QSOs and multipliers in any category? We thought you'd never ask...

- 160 – W4ZV (SO-160) with 399 QSOs and K3LR (M/M) with 74 entities
- 80 – KC1XX (M/M) with 1409 QSOs and 95 entities
- 40 – W8JI (VE7ZO, op - SO-40) with 2291 QSOs and W3LPL (M/M) with 127 entities
- 20 – K3LR with 2719 QSOs and tied with KC1XX at 131 entities
- 15 – K3LR with 1985 QSOs and 123 entities
- 10 – K3LR with 196 QSOs and 60 entities

There are your targets for next year – release the hounds!

Even if your call sign is not in that top echelon, you can still hunt for a single-band DXCC. There were plenty made on three of the middle bands: 29 on 40 meters, 52 on 20 meters, and 34 on 15 meters.

Next Year

With solar cycle 24 on the rise, 2011 could prove to be even more exciting. Start preparing for next year now. Maximize comfort in your shack to make operating even more enjoyable. Play around with that new antenna idea, build a new station accessory or finally purchase that missing piece of equipment to give you a winning edge. Sharpen your CW skills and prepare for an exciting 48-event on February 19-20 in 2011!
